- 9 way serial cable (for connection to Supernova & Europa Testers)
- Label cartridge black on yellow

Labels
- Label Cartridge black on white
  Part number: 342A912
- Label Cartridge black on yellow
  Part number: 308A914

Compatibility
Bluetooth connection:
- Apollo 600
- Apollo 500
- PrimeTest 350
- PrimeTest 300

Serial connection:
- Supernova Elite
- Europa Plus

Dimensions: (W x H x D) 152 x 101 x 95mm

Weight: 1150g

Part number:
Serial & Bluetooth connection 308A927
Serial only connection 308A910

IMPORTANT INFORMATION: Please be aware that use of non-Seaward approved labels can prematurely wear the print heads and so will void your Seaward printer warranty.

Bluetooth Barcode Scanner

A portable asset label ID laser scanner with Bluetooth interface.

It is extremely compact and lightweight, making it ideal for mobile applications. Powered by standard LR-3 (AAA) batteries. Reads 1D barcode formats code 39, code 93 & code 128.

Key Features
- Lightweight & portable
- Wireless Bluetooth connectivity
- Compatible with Apollo series of testers

Compatibility
- Apollo 600
- Apollo 500
- PrimeTest 350
- PrimeTest 300

Dimensions: (W x H x D) 40 x 96 x 22mm

Weight: 50g (excluding battery)

Part number: 339A923

CCD Barcode Scanner

A non contact barcode label scanner for rapid, error free entry of appliance number, test code and asset details.

Connects to Supernova Elite via serial connection. Reads 1D barcode formats code 39 & code 128.

Key Features
- Connects directly to the tester via serial cable
- Hand-held and easy to use
- Compatible with Supernova Elite and Europa Plus testers

Compatibility
- Supernova Elite
- Europa Plus

Dimensions: (W x H x D) 164 x 77.5 x 63mm

Weight: 160g (excluding lead)

Part number: 194A922
